EN USER MANUAL

Introduction

Thank you for choosing the **SG Otrera Wired Gaming Mouse.**

The SG Otrera Wired software allows you to fully customize your mouse, including:

- Programming buttons and macros
- Creating game-specific profiles
- Adjusting DPI sensitivity levels
- Importing and exporting configurations

The software is designed to help gamers optimize the mouse for FPS, MOBA, MMO and productivity applications.

MAIN FEATURES

- 8000 changeable DPI resolution
- Customizable settings via dedicated software
- Ultra lightweight design at 46gr

INSTALLING THE SOFTWARE

1. Connect your SG Otrera gaming mouse to an available USB port.
2. Launch the driver installation package and follow the on-screen instructions.

EN

3. Once the installation is complete, run the software.
4. Your mouse will be automatically detected and ready for configuration.

MAIN INTERFACE OVERVIEW

The Otrera Driver Software allows you to customize your mouse according to your gaming or productivity needs.

- **Key Settings**
  Customize button assignments and create personalized control schemes.
- **DPI Settings**
  Adjust cursor sensitivity and configure multiple DPI levels.

EN

- **Macro Editor**
  Create and manage advanced macros for gaming and productivity tasks.
- **Profile Management**
  Save, import, and export configuration profiles for different games and applications.

KEY SETTINGS

The software allows you to customize the five programmable mouse buttons of your Otrera gaming mouse.

Available assignments include:

1. Standard mouse functions
2. Keyboard keys
3. Keyboard shortcuts
4. Multimedia controls
5. Macro commands.

How to Assign a Function

Step 1: Select the mouse button you wish to customize.

Step 2: Choose the desired function from the available options.

Step 3: Click Apply to save the changes to the mouse.

DPI SETTINGS

Adjusting Mouse Sensitivity

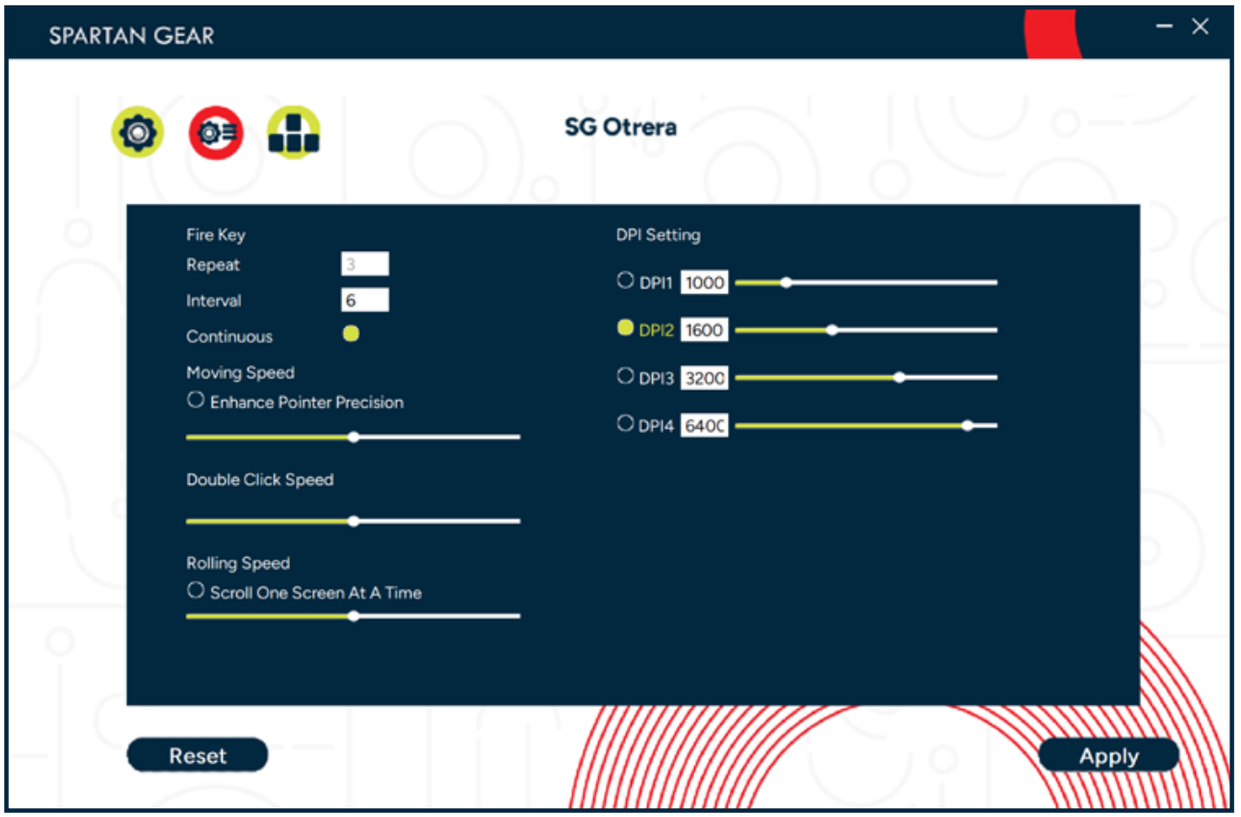

The SG Otrera supports up to four customizable DPI levels that can be switched instantly using the DPI button.

EN

Recommended settings:

USE	DPI
Office & Everyday Use	800 - 1600 DPI
Gaming	1600 - 3200 DPI
Fast-Paced Competitive Games	3200+ DPI

Each DPI level can be individually configured through the software.

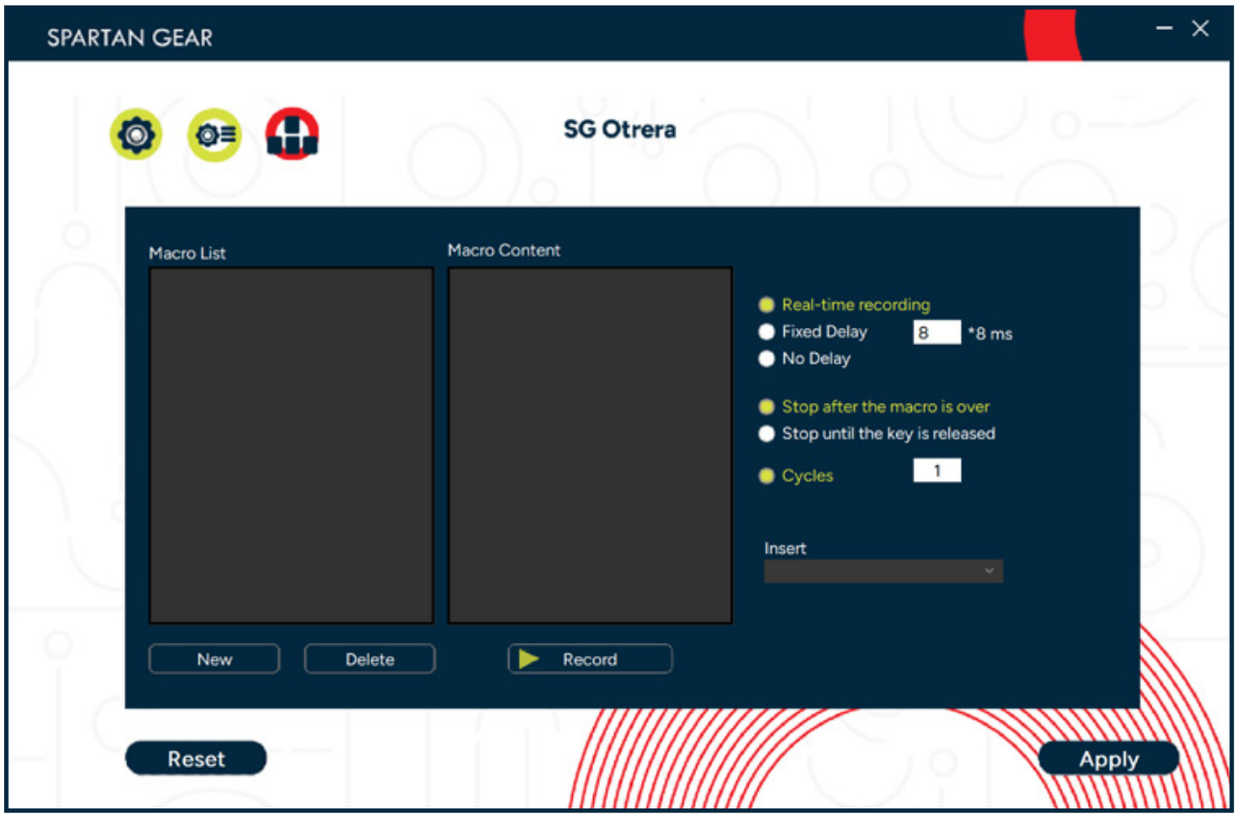

MACRO EDITOR

The Macro Editor allows you to record and assign custom command sequences to your Otrera mouse.
You can:

- Record keyboard commands
- Add delays between commands
- Save and edit macros
- Import and export macro files
- Assign macros to mouse buttons

This feature can help improve efficiency in games and repetitive tasks.

APPLY SETTINGS

Apply

The Apply button saves all changes to the mouse's onboard memory.

IMPORTANT: Changes will not be stored permanently until the Apply button is clicked. After applying your settings, they will remain active even after:

- Disconnecting the mouse
- Restarting your computer
- Closing the software

RESET SETTINGS

Reset

The Reset button restores the settings of the current page to their default values.

To restore all factory settings:

1. Click Reset.
2. Confirm the action.
3. Click Apply.

NOTE: Resetting settings cannot be undone.

TROUBLESHOOTING

Device Not Detected:

If your SG Otrera is not recognized:

- Disconnect and reconnect the USB cable.

- Try a different USB port.
- Restart the software.
- Run the software as Administrator

Settings Are Not Being Saved

Make sure you click Apply after making changes.
Check that:

- The mouse is properly connected.
- The software detects the device.

The USB connection remains stable during the save process.

Macros Are Not Working:

Verify that:

- The macro has been recorded correctly.
- The macro has been saved.
- The macro has been assigned to the correct button.
- The profile containing the macro is currently active

Software Malfunction:

If the software is not functioning correctly:

1. Reset the current settings page.
2. Click Apply.
3. Restart the software.
4. Reinstall the driver if necessary.

UNINSTALLING THE SOFTWARE

To remove the driver software:

1. Open Windows Settings.
2. Navigate to Apps > Installed Apps (or Apps & Features on older versions of Windows).
3. Locate SG Otrera Driver Software.
4. Select Uninstall.
5. Follow the on-screen instructions.

After the uninstall process is complete, restart your computer.
